DETAILED ACTION

This Office Action is in response to the Election filed on May 9, 2003.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Nickerson on July 18, 2003.

The application has been amended as follows:

The original Restriction requirement, Paper No. 6, placed Claims 30 and 31 within Group II, a Class 438 category. As Claims 30 and 31 are device claims, they are more appropriately categorized in Class 257. Therefore, Group I of Paper No. 6 now comprises the following claims: Claims 12-23, 30, 31 and 46-60.

Election/Restrictions

Applicant's election with traverse of Group II/Claims 1-11, 24-29 and 32-45 in Paper No. 7 is acknowledged. The traversal is on the ground(s) that the Examiner has failed to provide a prima facie case that the device can be made by another and materially different process. This is not found persuasive because the tape can be mounted to the wafer/die after dicing instead of mounting the dicing tape before dicing. Furthermore, as Group I (Class 257) and Group II (Class 438) have acquired a separate

status within the art, as denoted in the April 3, 2003, Office Action, they present an undue examining burden upon the Examiner.

The requirement is still deemed proper and is therefore made FINAL.

New Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention.

Species I – appears to relate to Claims 1-11 and 24-25 (noting Applicant's specification page 8 lines 10-17)

Species II – appears to relate to Claims 26-29 (noting Applicant's specification page 8 lines 25-30)

Species III – appears to relate to Claims 32-45 (noting Applicant's specification page 5 lines 27-33)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claim 26 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David L. Hogans whose telephone number is (703) 305-3361. The examiner can normally be reached on M-F (7:30-4:30).
